### ADOPT A CHILD.

Get One From Children's Home Society, Nashville.

The Tennessee Children's Home Society, located in Nashville, Tenn., has a number of splendid boys, whose ages range from four to seven years, as well as a number of smaller boys. Also a few little girls.

These children are ready to be placed in good family homes on trial, and if satisfactory, legal adoption may be had.

The Home also has a number of infants, from only a few weeks to one year old, both boys and girls.

While you read this article, do you not think that you could share your home with one of these little unfortunates? The majority of these little ones have lost both their mother and father, and you would be doing a Christ-like act, in not only giving happiness and possibilities to the child, but render great pleasure and happiness to your home, for no home is complete without a child.

Think who you are going to play Santa Claus to this Christmas. Address all communications to B. G. Regen, Supt., 315 Second Ave. North, Nashville, Tenn.

### WILL BE STOPPED.

Owing to the recent heavy increase in the cost of the paper, along with other previous advances in the cost of ink and other things, we find it necessary to cut off several free copies of the paper that we have been sending to certain persons. After this week we will drop several of the kind designated. We feel sure that those who have been favored so long without cost to them will feel that we are not doing them either an injustice or unkindness by this course.

Robin Hood Tradition.

The part of the English coast which recently suffered from German bombardment was connected with Robin Hood. Tradition says that from Whitney towers he and Little John used to shoot at long range with their English bows, and a bay a little south of this town bears to this day the name of Robin Hood's bay. This would seem to bear out the belief of Louis Rhead, author and illustrator of "Bold Robin Hood," that Robin Hood was an actual living personage and that his words and deeds continue to be a familiar part of the Anglo-Saxon heritage.

London Rentals Highest in World.

Fifty years ago London was one of the lowest rented of the great capitals of the world. Nowadays it is one of the highest. For shops Bond street is the dearest thoroughfare in the world. Broadway in New York comes next, and a limited radius near the Place de l'Opera in Paris ranks third. A small shop in Bond street readily rents for from \$6,000 to \$7,500 a year. This includes the shop and basement, but not any other part of the premises. The shops in Regent street cost even more, but then they are larger, thus making the rent to the square foot work out less.

Information.

"What does it mean," asked Willie, looking up from his history lesson, "when it says that the Roman neither asked nor gave quarter?"

"Why—er—you see, they had a different system of currency in those days," replied his father, "and so, of course, they didn't call them quarters. They called them sesterces or dinasauri, or something like that."
